Rajveer mahadevwala

AI/ML Engineer

mahadevwalarajveer@gmail.com +91 9898130771 LinkedIn GitHub Portfolio India

SUMMARY

I'm a Computer Engineering student passionate about AI, Machine Learning, and software development. I enjoy building intelligent applications, exploring new technologies, and turning ideas into real-world projects. Currently focused on growing as an AI engineer while strengthening my foundations in computer science.

EDUCATION

Bachelor of Computer Science (IT) 9.5

ITM (SLS) Baroda Universtiy

08/2024 - 08/2028 Gujarat,India

PROJECTS

AI-Powered Personal Assistant with Voice Recognition

Python , Tkinter , Google Gemini API

https://github.com/Rajveer979/ai-assistant

Desktop AI assistant with Google Gemini API integration and voice command support for hands-free interaction. Includes a modern dark GUI, real-time output, and automated browser/app operations.

AI-Powered Crowd Safety Monitoring

YOLOv8,InsightFace,FastAPI,Python

https://github.com/shravansuthar2/smart-crowd-safety

Smart crowd safety system using YOLOv8 and InsightFace for real-time crowd detection, missing-person finder, and fire detection in video feeds. Built with a FastAPI backend and responsive dashboard.

Tech E-Newspaper

Next.js,Groq,Supabase,Vercel,Cron,RSS

https://github.com/Rajveer979/e-newspaper

A fully automated daily tech newsletter — AI-curated top 8 stories from 10 RSS feeds, delivered by email every morning. Runs 100% hands-off on free tiers.

SKILLS

HTML CSS JavaScript React Next.js Node.js Express MongoDB python machine learning

CERTIFICATIONS

Design and Analysis of Algorithms

NPTEL (IIT Madras)

Programming, Data Structures and Algorithms using Python

NPTEL (IIT Madras)

Google AI Essentials
